# INSTRUCTIONAL GUIDE TO EDUCATIONAL FILMS

POZNAŃ 2026

*Editor*
Tomasz Kotwicki

*Authors*
Maciej Idzior, Piotr Janusz, Tomasz Kotwicki,
Milud Shadi, Bartosz Musielak, Aleksander Koch,
Marek Tomaszewski

*Reviewers*
prof. Marek Jóźwiak, PhD, DSc
Michał Walczak, PhD in Medical Sciences

*Typesetting, layout, and cover design*
Bartłomiej Wąsiel

Ark. wyd. 2,2. Ark. druk. 3,6.
Format A5. Zam. 70/2026.
Przekazano do druku w lipcu 2026.

# Contents

## 1. Neurological examination in orthopedics

Principles of testing deep (physiological, tendon) reflexes . . . . 7
Technique for Examining Upper Limb Reflexes . . . . . 8
1.1. Biceps deep tendon reflex . . . . . 8 — 1.1
1.2. Triceps deep tendon reflex . . . . . 8 — 1.2
1.3. Brachioradialis deep tendon reflex . . . . . 8 — 1.3
1.4. Patellar reflex from the quadriceps muscle . . . . . 9 — 1.4
1.5. Ankle (Achilles tendon) reflex . . . . . 9 — 1.5
Assessment of deep (physiological, tendon) reflex examination results . . . . . 9
Examination of superficial (cutaneous, physiological) reflexes . . 10
1.6. Plantar cutaneous reflex . . . . . 10 — 1.6
Abdominal skin reflex . . . . . 10
Examination of pathological reflexes . . . . . 11
1.7. Babinski sign . . . . . 11 — 1.7
1.8. Rossolimo sign . . . . . 12 — 1.8
1.9. Lasegue's sign (straight leg raise) . . . . . 12 — 1.9

## 2. Assessment of joint motion ranges

2.1. Assessment of shoulder joint motion range within the sagittal plane . . . . . 14 — 2.1
2.2. Assessment of shoulder joint motion range within the frontal plane . . . . . 14 — 2.2
2.3. Assessment of shoulder joint motion range within the transverse plane . . . . . 14 — 2.3
2.4. Assessment of elbow joint motion range . . . . . 15 — 2.4
2.5. Assessment of wrist joint motion range within the frontal plane . . . . . 15 — 2.5
2.6. Assessment of wrist joint motion range within the sagittal plane . . . . . 15 — 2.6
2.7. Assessment of motion ranges in finger joints . . . . . 15 — 2.7

2.8 2.8. Assessment of intrinsic hand muscles . . . . . 16
2.9 2.9. Assessment of thumb movements . . . . . 16
2.10 2.10. Assessment of hip joint motion range . . . . . 16
2.11 2.11. Assessment of hip joint rotation range . . . . . 16
2.12 2.12. Assessment of knee joint motion range . . . . . 17
2.13 2.13. Assessment of ankle (tibiotalar) joint motion range . . . . 17
2.14 2.14. Assessment of subtalar (talocalcaneonavicular) joint motion range . . . . . 17
2.15 2.15. Otto's sign . . . . . 17
2.16 2.16. Schober's test . . . . . 18
2.17 2.17. Thomas test . . . . . 19
2.18 2.18. Drehmann's sign . . . . . 20

## 3. Assessments of muscle strength

3.1 3.1. The Lovett scale for muscle strength grading . . . . . 21
3.2 3.2. Deltoid muscle . . . . . 21
3.3 3.3. Biceps muscle . . . . . 22
3.4 3.4. Triceps muscle . . . . . 22
3.5 3.5. Quadriceps muscle . . . . . 22
3.6 3.6. Tibialis anterior muscle . . . . . 23
3.7 3.7. Tibialis posterior muscle . . . . . 23
3.8 3.8. Peroneal muscles . . . . . 23

## 4. Assessment of muscle flexibility and hypermobility of joints

4.1 4.1. Assessment of the flexibility of the pectoralis major muscles . . . . . 24
4.2 4.2. Assessment of the flexibility of the iliopsoas muscles . . . . 24
4.3 4.3. Assessment of the flexibility of the hamstring muscles (popliteal angle) . . . . . 25
4.4 4.4. Assessment of the flexibility of the triceps surae muscle (Silfverskiöld test) . . . . . 26
4.5 4.5. Beighton scale grading of joint hypermobility . . . . . 26

## 5. Limb length and circumference measurements

Measurement of upper limb length . . . . . 28
5.1 5.1. Arm length measurement . . . . . 28
5.2 5.2. Forearm and hand length measurements . . . . . 29
Lower limb length measurements . . . . . 29
